

Brunswick County Emcomm Winlink Net

Session #023

Net Session Start: Monday August 17th at 12:01 AM

Net Session End: Saturday August 29th at 11:59 PM

Send your completed Winlink message to: K1MJJ@winlink.org or just K1MJJ

Notice:

- Please maintain your monthly ICS 214a for the month of August stating the time you spend working on the Winlink exercise(s) you have completed for the month of August. I will ask for the 214a at the end of the month.
- Please keep all Winlink correspondence for the month of August exercises in a separate folder within Winlink. If you do so, then it will be straightforward to collect them in an ICS 309 communication log to send to me at the end of the month.
 - I have sent all of you a document on how to create a personal folder within Winlink
- You should have the two documents that I sent to you explaining how to create an ICS 309 document within Winlink and the document explaining how we will use an ICS 214a.
 - If you don't have either or both documents, then send me an email and I will provide them to you.

You should also have a blank writable ICS 214a PDF that I sent to you. If you don't, then send me an email and I will send you a copy.

Note:

- I would recommend that you send me your ICS 214a and ICS 309 via Telnet. PDF files created the way I have asked you to create them are quite large. If you try to send them via VHF or HF then you will be sending them through a slower medium.

The Scenario:

- I hope that all of you who did exercise #022 enjoyed experimenting with the Winlink AI. We will in the future do more with this new Winlink feature.

- For the exercise #023 we will go back to our roots and do a local weather report.
 - Practice from time to time on familiar templates is needed.

Steps to complete this exercise:

1. Verify that your Winlink Express (WE) is at version 1.8.4.0.
 - a. Always update Winlink Express.
2. Start a new message.
3. Select template Standard Forms → Weather Forms → Local Weather Report.txt
4. Click Setup button and type
 - a. BC EmComm Winlink Net
5. Verify that this is an Exercise
6. Fill out the form with your local weather.
7. In the notes section write:
 - a. Your call sign, your name, your town, your county, the band/mode you are using to send the message,
8. Check your work!!!
9. Send it to K1MJJ
10. Post the message to the Outbox
11. Send your work to me via Telnet, VHF Packet, Vara FM or Vara HF.

Folks if you can please try to send me your work via RF. The only way you will be comfortable using the radio with Winlink is to practice.

Have fun and learn from this exercise.

12. Please send me any questions you have to my Winlink account or to K1MJJ.Ham@gmail.com.
